First-of-their-Kind Vitamints Play Double-Duty: Vitamin and Mineral Supplements in a Breath Mint

New Family of Vitamins to Freshen Breath While Providing Necessary Nutrients

Make the bed, go to the gym, pack lunch while brushing teeth, put gas in the car while checking emails, get to work or school on time. When scrambling to get ready, remembering to take a daily vitamin can get lost in the shuffle. Why not remove it from your morning routine altogether? New Vitamints are the first ever vitamin-and-mint-in-one and can be taken anytime, anywhere. Take one after your morning coffee, a meal or snack, and while freshening breath, it will also help provide you with your recommended daily dose of vitamins and minerals.

Vitamints are conveniently packaged in sleek tins that easily fit into a pocket, gym bag, purse or computer case. A daily dose of one tablet taken four times per day helps provide the recommended daily allowance of several vitamins and minerals while enhancing absorption of key nutrients. Vitamints are available in five varieties, each designed to target a specific health need:

- Immune: Proactively boosts immune function*
- Energy: Helps maintain stamina and endurance*
- Calm: May improve relaxation to alleviate symptoms of stress*
- Focus: Helps enhance concentration and memory* **
- Multi for Women: Designed specifically to address women's health needs*

"In our fast-paced world, schedules are always changing and the last thing we want is to stop and remember to take that giant horse pill in the morning. Vitamints not only offer the recommended daily dose of essential vitamins and minerals, but they taste great and you can take them anytime throughout the day, whenever and wherever works for you, without a fixed schedule and even without water," says Shazad Bukhari, Chief Operating Officer at The Winning Combination, Inc.

Vitamints are available at Walgreens nationwide beginning spring 2013. The suggested retail price for a sixty-count tin is \$4.99. For more information, visit www.vitamints.com.
